

American University of Armenia
Extension Program

BASIC PRINCIPLES OF WESTERN ACCOUNTING AND FINANCIAL MANAGEMENT

This course focuses on western accounting practices and financial management techniques as they apply to the operational aspects of a small to medium business. The course will be offered in lecture and workshop formats and will review financial statements, financial control systems, reporting, and budgeting. The course will also address some aspects of financial management. Participants are encouraged to bring to class specific problems they encounter in their business.

Additional Information:

- *The instructor will be Mr. Hugh Adams, MBA, who has extensive US corporate experience in accounting and financial management.*
