

TO Dr. Mihran Agbabian
FROM Ashot Hovhannissian
TOPIC: Medical room of AUA
DATA 06.16.1992

Dear Dr. Agbabian.

The last conversation between us clarifies that the medical room of AUA will have to provide AUA students and staff with first aid treatment and help them get further diagnostic and medical service when necessary.

I am glad to inform you that after talking to the chairmen of both Republican Hospital and Diagnostic Center I figured out their willingness to contact with AUA and provide us with appropriate services.

About the medical room of AUA I would like to list some equipment and devices that are essential.

General purposes equipment:

1. Table - 1
2. Chair - 3-4
3. Cot - 1
4. Shelves - *
5. Desk - 1
5. Portable tables -2
6. First Aid Kit -3-4

Medical equipment :

1. Electrocardiograph
2. Tonometer
3. Stethoscope(s)
4. Laryngoscope with different heads
5. Intubation tubes of different sizes (5.0 - 12.0)
6. Manual respirator(s)
7. Scissors, tweezers, blades etc.
8. Gowns
9. Disposable syringes, needles, gloves, urinal, intravenous and suction catheters
10. Aspirator
11. Thermometers

Specific medical equipment and drugs (tablets, liquids, injections, creams, sprays etc.)

1. Pain relievers and anesthetics
2. Antiseptics
3. Antiseptic wipes
4. Burn creams (steroids as well)
5. Nitroglycerine or/and other nitrates.
6. Ophthalmic Irrigating Solution
7. Bandages (different types and sizes)
8. Pads
9. Medical sponges
10. First Aid Tape

Of course this is not a complete list. Other items will be found here in Armenia.

For additional information please contact the medical room of your university in the USA if it is possible.

Sincerely Yours,

Ashot Hovhannissian.
