

AUA Suites at the Hybusiness

The newly remodeled AUA Suites at HyBusiness has opened its doors to visitors to Armenia. This unique boutique hotel will ensure that visits are enjoyable and memorable, and visitors will be making a contribution to the development of Armenia because funds from the AUA Suites directly support the American University of Armenia scholarship fund and the University's many talented students benefit.

The University acquired the AUA Suites at HyBusiness through a generous donation of the late AUA Board Member Mr. Vartkes Barsam to provide housing for students and faculty, as well as serve as a hotel for guests in Armenia. AUA recently completed renovation of the facility with assistance from the United States Agency for International Development's American Schools and Hospitals Abroad Pro-

gram. The facility now features 23 spacious rooms designed to serve individual needs and tastes with a Junior Suite (studio), a Senior Suite (one-bedroom apartment), and an Executive Suite (two-bedroom apartment).

Being located only a few steps away from the Republic Square and within walking distance from most of the attractions and entertainment in Yerevan, AUA Suites offers an exceptional environment where guests have access to the University's online library holdings from a workstation in the lobby. All rooms and the lobby are equipped with high-speed internet access to meet the needs of both business travelers and families.

AUA has made every effort to ensure that guests receive personal attention and excellent service from experienced and friendly hotel staff.

will strengthen its network and engage young Armenian professionals throughout the world.
